

RESIDENTIAL

NEPTUNE OKAY FOR WEMBLEY WAVE

Neptune Group has won planning consent for a cluster of residential towers overlooking the Wembley Stadium regeneration site in north London. The seven blocks, six to 14 storeys tall, include 441 homes on a 3.75-acre canalside site. The Squire & Partners-designed scheme, part of the regeneration of Alperton, Middlesex, will open up the canal area, creating waterside spaces for social, residential and business use.
